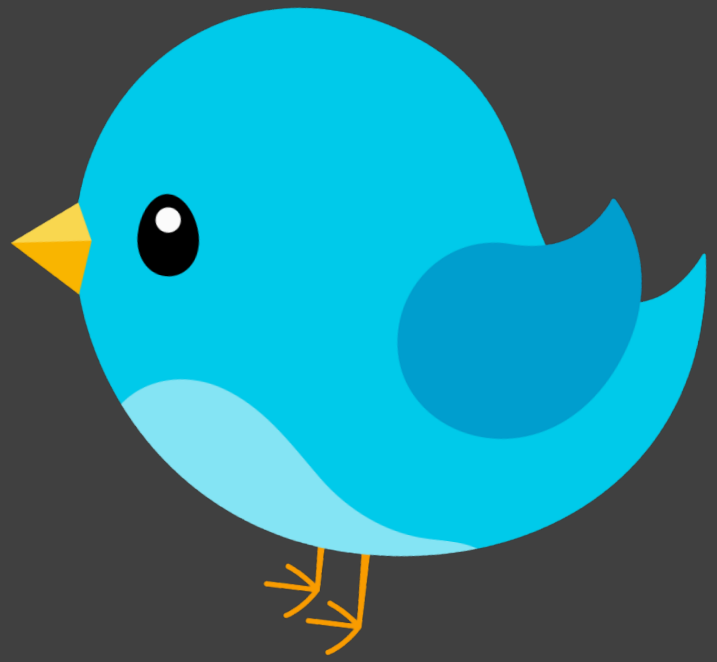
Dart- Task 2

Dart Basics



Dart Flutter

by Max Berktold & Max Steffen

Calculate factorial

- Ask the user to enter a number
- Make sure that the entered value is a number
- Calculate the faculty for the entered number
- Print the calculated value on console

- https://en.wikipedia.org/wiki/Factorial

Feedback

- Go to our discord server (https://discord.gg/N8sGhCWgX6)
- Post your solution in an own thread under ”Course Members” -> “tasks”
- When you do not see ”Course Members”, write us a short message in discord and we give you access.
- Look into other solutions and discuss different solutions.
