

Dart- Task 6

Dart Basics

Dart

Flutter

by Max Berkold & Max Steffen

Hangman

- Have a list of ten words
- Choose a random word
- Ask the user to enter a letter
- Each user has 10 lives
- When the entered letter matches one or more letters of the searched word, print it out, otherwise remove one live
- All letters that are not guessed are replaced with a whitespaces, underscore or something else
- If the user has no lives left, the game is over

Feedback

- Go to our discord server (<https://discord.gg/N8sGhCWgX6>)
- Post your solution in an own thread under "Course Members" -> "tasks"
- When you do not see "Course Members", write us a short message in discord and we give you access.
- Look into other solutions and discuss different solutions.
